MOGALE CITY LOCAL MUNICIPALITY

QUOTATION I(R) 06 2008

FORM E

TENDERS ARE INVITED FOR THE SUPPLY, DELIVERY AND SPRAYING OF WEED KILLER (HERBICIDES)

SPECIFICATIONS

1. SCOPE:

This tender provides for the supply, delivery and spraying of weed killer(herbicides) on an as and when required basis, for a period of twelve (12)months commencing from date of approval, at various sites situated within the area of jurisdiction of the Mogale City Local Municipality.

2. PLACE OF DELIVERY:

All prices quoted must be NETT and include for supply and delivery at such sites within the Municipal Area of Mogale City as the Director may direct. The tenderer must state on the price schedule the shortest time in which they can commence delivery after receipt of an official order

3. **QUANTITIES:**

No specific quantity will be laid down for this Contract, and orders will be placed on an as and when required basis.

Township layout plans will be supplied by the sub-directorate's representative to the contractor, indicating the lengths and area to be treated, where upon payment will be done accordingly.

Approximate Quantities:

- Spraying of +/- 600 Km road edge gutters (+/-12ha).
- Spraying of walkways and paved areas (+/-12ha)
- Spraying of storm water channels (+/- 4,5 km)
- Approximately 18,7 km railway sidings.

4. **METHOD OF WORKING**

- 4.1 The contractor must at all times exercise care while undertaking the contract and ensure that trees, shrubs, hedges, flowers, etc on the pavements or private properties adjoining the treated areas are not affected by root uptake or movement of the herbicide by wind, rain or transport by water and shall take precautions while working to prevent accidental contact with herbicide by children, animals or irresponsible persons. The contractor shall be responsible for costs in this regard.
- 4.2 The contract may under no circumstances treat cultivated and well-maintained sidewalks, other than the specified width of 100mm or as specified away from the edge of the kerb line. In the event of damage, it must be repaired before the next payment will be made.
- 4.3 The inside of the stormwater channels must be treated but care must be taken so that the vegetation on the sides is not treated, as this can cause erosion.
- 4.4 The contractor must, at the commencement of the contract, submit the outline, his intended program of working, for the approval of the sub-directorate's representative.
- 4.5 The program must include the chemicals to be used.
The strength of the weed killer must correspond to the mixing requirements as laid down by the manufacturers and may also depend on the type of weed treated.
The type of mixture used or changes thereto should be communicated to Mogale City's representative first for approval prior to the commencement of the project.

- 4.6 Water usage for spraying of poison, will be for the contractor's account and should therefore be included in the tendered rates.
- 4.7 A R5000,00 returnable deposit is payable for the obtainment of a standpipe for water.
- 4.8 Infestation is assumed at 40% and only areas identified by the contractor before commencement of spraying as being of higher infestation and agreed upon by the engineer's representative will be paid at the higher quoted rate.

5. SPECIFICATIONS:

The Director reserves the right to request samples when necessary and all Relevant Test Results of test made (Only on request). A visible 95% effective weed control status must be visible on inspection at 21 days, if not; remedial spaying must be done by the contractor at his cost.

6. CHEMICAL PROPOSAL

- 6.1 For the treatment of streets, sidewalks and paved areas as well as constructed stormwater systems and channels, chemicals containing the described active ingredients must be used.

Chemical A: Glyphosate (480g/l SL or 500g/kg WSG)
 Chemical B: Glyphosate/Terbuthylazine/Simazine (125/175/175 g/l)
 Or Glyphosate/Terbuthylazine (240/345 g/l)
 Chemical C: (Alternative)

.....

- 6.2 For the treatment of railway sidings, chemicals containing the following active ingredients must be used:

Chemical D: Bromacil / Terbuthylazine (80/120 g/kg)
 Or Bromacil/Terbuthiaron granules (76/24 g/kg)
 Or Bromacil/Diuron granules (55/70 g/kg)
 Chemical E: Bromacil (500 g/l)
 Or Bromacil/Tebutthiuron (250/250g/l)
 Or Tebutthiuron (500g/l) together with Glyphosate (480g/l)

Chemical F:(Alternative)

7. LEGAL REQUIREMENTS:

- 7.1 Only products in accordance with Act 36 of 1947 are to be used.
- 7.2 The contractor must be registered as a Pest Control Operator to apply industrial weed killers in accordance with the above Act and a copy of his/hers Registration Certificate must be submitted with the document

8. EXPERIENCE

Tenderers must give examples of previous contracts done by them of works of similar nature, particular in urban areas.

9. ALTERATIONS:

If the Contractor desires any alterations in connection with the Contract, this fact must be specifically noted when tendering as per Form "F" – Variations and Omissions, as no alterations will be considered after the tender has closed.

10. DELIVERY:

Tenderer must state the period of delivery from date of official order on the price schedule.

11. PRICE:

The tenderer must state on the price schedule:

- a. If the price is firm or not.
- b. In the event of an application for a price increase by the successful tenderer during the contractual period, the Municipality reserves the right to compare the increased prices with that obtained from other sources of supply and to subsequently purchase at the lower prices.
- c. VAT must be excluded.
