The municipality however does not grant relief in respect of payments for rates to any category of owners or properties, or to owners of properties on an individual basis.

- (a) Equity

The ability of a person to pay rates will be taken into account by the municipality. In dealing with the poor/indigent ratepayers the municipality will provide relief measures through exemptions, reductions or rebates.
 - (c) Sustainability
Rating of property will be implemented in a way that:
 - i. it supports sustainable local government by providing a stable and buoyant revenue source within the discretionary control of the municipality; and
 - ii. Supports local social economic development
 - (d) Cost efficiency
Rates will be based on the value of all rateable property and will be used to fund community and subsidised services after taking into account surpluses generated on trading (water, electricity) and economic (refuse removal, sewerage removal) services and the amounts required to finance exemptions, rebates, reductions and phasing-in of rates as approved by the municipality from time to time.

4. SCOPE OF THE POLICY

- 4.1 This policy document guides the annual setting (or revision) of property rates. It does not make specific property rates proposals. Details pertaining to the applications of the various property rates are published annually in the Provincial Gazette and the municipality's schedule of tariffs, which must be read in conjunction with this policy.
