

FLEET MANAGEMENT

INTRODUCTION

The aim is to provide an effective fleet management service for the entire municipality through managed maintenance and maintenance plans, a continuous availability programme and a total fleet management function.

KEY ACHIEVEMENTS

- *Management of lease contracts:* have been paying administrative costs and monitoring ongoing utilisation of the fleet;
- *Refurbishment of older trucks:* 3 waste removal trucks have been refurbished;
- *Service and maintenance of fleet:* ongoing day-to-day services as required;
- *Cost tracking:* currently engaged in a process of identifying high maintenance cost vehicles for possible replacement;
- *Accident Management:* ongoing.

KEY CHALLENGES

The following projects have been put on hold due to financial constraints:

- Workshop management system until June 2005
- Vehicle tracking system
- Purchase of tools until October 2004
- Parking area for completed vehicles and staff until October 2004
