Bio-Diversity- Refers the optimum level of species diversity that will naturally occur in any habitat for the sustainability of natural ecosystems. The effective management of Bio-Diversity ensures that not a single species or natural feature's future existence in any habitat is compromised through human interference. It involves landscaping and management of key transport corridors and improvements to parks, sports and recreational facilities.

In terms of section 74 and 75 of the Local Government : Municipal Systems Act, 2000, and Regulation 317 of the National Road Traffic Act 93 of 1996, the Council is authorized to levy fees, charges and tariffs in respect of any function or services of the Municipality, in this instance, Public Safety services.			
Significant to indicate is that the implementation of the Public Safety Policy will be in line with the principles stipulated in Section 74 (2) of the Local Government: Municipal systems Act, 2000. Where the Municipality chooses to differentiate amongst various categories of service users, such differentiation will not be based on nor will it amount to unfair discrimination.			
The Municipality shall ensure that its tariffs are uniformly and fairly applied throughout the Municipal jurisdiction
