6.5 Description and Calculation of Travelling Allowance Categories

6.4.1 A Fixed Travelling Allowance

- 6.4.1.1 This is an allowance that shall be payable automatically to incumbents whose inherent functions require travelling and the position shall be coupled with a locomotion allowance appointed on a permanent and/or fixed term contract on the First-level Management (i.e. Assistant Managers) and Middle-level Management (i.e. Managers) positions; provided that such employees:
- (a) Are newly appointed by the MCLM with effect from date of approval of the Revised Travelling Allowance Scheme.
 - (b) Have successfully applied for promotional posts in First-level and Middle-level Managers with effect from date of approval of the Revised Travel Allowance Scheme.
 - (c) Meet the guiding principles and conditions provided for in 6.3.2 of this policy.

- 6.4.1.2 (a) The fixed travelling allowance payable together with the employee's salary on a monthly basis, shall be fixed amount calculated based on 35% of the basic salary (annual increase excluded), of the incumbent occupying the allowance bearing post
- (c) The 35% of the basic salary excluding annual increase, fixed Travelling Allowance will be revised on a 3-year cycle on discretion by the Municipal Manager in consultation with the Executive Mayor, subject to the financial viability and affordability of the municipality.
- 6.4.1.3 The 35% of basic salary, fixed travelling allowance will be amended at the end of 5-7 year contract and will be open for revision in result of vehicle accidents and vehicle theft.
- 6.4.1.4 Any employee who receives a fixed travelling allowance and whose geographical location may change in future as a result of appointment in a promotional post, will not be entitled to travel with official transport to his/her new work centre; such an employee will have to travel with his/her own private vehicle and will not be entitled to claim for kilometers between his/her residence and new work center.
- 6.4.1.5 Employees who are in receipt of an existing fixed Travelling allowance which they enjoyed from their previous post in accordance with applicable policy before the amendment and who are appointed to a promotional post that have a fixed **transport travelling** allowance attached to it, shall relinquish their existing fixed Travelling allowance and move to the allowance prescribed for the new position.
- 6.4.1.6 Employees remain entitled to and must be paid the full amount of their fixed monthly travelling allowance during any period of absence on leave with full pay.
- 6.4.1.7 It will be an employee's own responsibility to keep regular log sheets acceptable to the SARS for business kilometers travelled and to submit such log sheets annually to the SARS as part of their income tax return.
- 6.4.1.8 All employees on level 3-1 will not qualify for locomotion allowance; as they are employed on Cost to Company and structure their own packages. Based on recommendation, Locomotion Allowance for all officials from level 4-15 will be determined by the inherent responsibilities and requirements of the job
- 6.4.1.9 The kilometre distance (minimum of 650km and a maximum of 1200km) will be determined by the relevant Executive Manager and approved by the MM. Any kilometres above the maximum kilometres will be approved by the MM.
- 6.4.1.10 The kilometres covered in the preceding three months must be divided by 3 to obtain an average monthly official kilometre distance in respect of the post. For official trips outside the above limit, or trips outside the Municipal boundaries, only the prescribed total running cost rate (fuel and maintenance costs) shall be paid and proof of kilometre distance travelled/ covered must be provided. Payment for trips outside the boundaries of the Municipality will only be made upon proof that the actual monthly kilometre distance allocated for fixed locomotion allowance has been exhausted.

6.4.2 Fixed Compensatory Travelling Allowance

- 6.4.2.1 Employees in the positions lower than First-level and Middle-level Managers who by the nature of their duties are compelled to utilize their private vehicles in the completion of their official duties on a regular basis are eligible to receive a fixed compensatory travelling

allowance with the recommendation of the Executive Manager and the approval of the Municipal Manager.

6.4.2.2 In order to provide a form of fringe benefit as well as to provide for actual distances travelled a fixed compensatory transport allowance will be allocated to these positions and the fixed allocation for this category will be paid in terms of a kilometer allocation coupled to the position from minimum of 650 km and may be increased according to the intervals of 150 km up to the maximum of 1 250 km.

6.4.2.3 Where an employee covers more than 1250 km per month for official purposes, it is suggested as a guideline that such incumbent rather be supplied with an official vehicle and in the case where fleet is not available running costs would be paid for the excess kilometers so travelled.

6.4.2.4 The procedure for the coupling of an allocation to the position will be as follows:

6.4.2.4.1 The incumbent will maintain officially approved log sheets of actual distances travelled for a period of **six (6) three (3)** months.

6.4.2.4.2 Only distances travelled within the Municipal boundaries or **to Council premises/works** outside such boundaries in the execution of official duties will be taken into account, distances between work and home will be excluded.

6.4.2.4.3 The Executive Manager will send a motivated report along with the log sheets to the Human Capital Management Division for investigation and recommendation, where after; the Executive Manager: Corporate Support Services will approve/ disapprove the coupling of the allocation to the post.

6.4.2.4.4 As it is accepted that employees do not, as a result of vacation etc; always utilize their full allocations every month, the lower interval will be allocated to the post should the average of the log sheets submitted fall between two intervals.

6.4.2.4.5 Should the Executive Manager after the initial approval receives request from the employee to re-determine or increase the kilometer allocation coupled to the position, such a review can only be done on a three (3) years cycle and the procedure above must once again be followed. This implies that the Executive Manager will not have the discretion to increase allocations at will after the initial approval.

6.4.2.4.6 If an employee is dissatisfied with the provision or re-determination of the official distance limit associated with the position coupled with a Travelling allowance held, the employee may request **discussions with the respective Executive Manager**. **In the absence of an agreement being reached, the employee may take the matter further in line with the dispute resolution procedure in the Municipality.**

6.4.2.4.7 The employee shall be notified in writing of the maximum kilometre distance (distance limit) per month that the municipality determined for each post.

6.4.2.4.8 It will be expected of employees in the positions with allocations above 650 km to, one (1) year after receiving the allowance:

(a) maintain log sheets for a minimum of three months annually as a control measure;

- (b) send the log sheets to their Department to ensure that they are still entitled to the allowance based on such kilometers allocation;
- (c) department should send control sheets to the Executive Manager: Corporate Support Services who will approve/disapprove the continuance of the allowance based on such allocation; and
- (d) should the kilometers be reduced, the Human Capital Management Division in conjunction with the Department will inform the employee, of the reduction of the allocation after giving the employee one month's written notice.

6.4.2.4.9 The Executive Manager can at any stage terminate the **transport Travelling** allowance, after giving six months written notice, should he/she deem it no longer a necessity for the incumbent of the post to utilize his vehicle in the completion of his/her duties. During this period only the fixed cost component of the allowance will be paid. The Executive Manager: Corporate Support Services should then be informed accordingly.

6.4.2.4.10 The allowance payable will be calculated according to the fixed and running costs of the Automobile Association tables according to the 10 000 km column of the fixed cost component taking into account the employee's annual salary.

NB: Newly appointed employees to positions that already have Travelling allowance coupled to it, do not necessarily have to maintain the log sheet as the new incumbent will continue getting the same Travelling allowance coupled to that position unless it can be proven that the scope of travelling has increased.

6.4.3 Re-imbusement Travelling Allowance

6.4.3.1 The re-imbusement travelling allowance is an allowance or advance which is based on the actual distance travelled for business purposes of which the amount payable will be made to an employee by multiplying the actual business kilometers travelled by a running cost rate per kilometer.

6.4.3.2 The municipality shall offer a non-taxable reimbursive allowance deemed in terms of the Act to be expended on business travelling as such reimbursive amount:

6.4.3.2.1 will not exceed the running costs (fuel cost and maintenance cost) rate per kilometre as fixed by the Minister of Finance; and

6.4.3.2.2 the total business kilometres reimbursed for during the tax year will not exceed 8000 kilometres; and

6.4.3.2.3 no other form of compensation has been given/paid to the employee (such as a fixed travel allowance).

6.4.3.3 The incumbents in the positions lower than First-level and Middle-level Managers who do not receive the fixed compensatory travelling allowance may qualify to participate in re-imbusement Traveling allowance with the recommendation of the Executive Manager and the approval of the Municipal Manager only if there is a proven need for official travel within the boundaries of the municipality as substantiated by kilometre distance kept in a logbook/sheet by the incumbent.

6.4.3.4 To obtain approval in order to be eligible to participate in the scheme the incumbent should provide logbook/sheet which he/she has travelled **in excess of 300 km for every official kilometer** for each of the three successive months.

- 6.4.3.5 The re-imbusement Travelling allowance shall be allocated to the positions of which official kilometres distance in excess of 300 km should be travelled per month within the municipal boundaries and the kilometers to be claimed would be limited to the maximum of 650 km per month.
- 6.4.3.6 The re-imbusement Travelling allowance shall be payable based on preceding month's claim of actual official kilometers distance travelled within the municipal boundaries using the private vehicle officially approved for the purpose of Travel allowance.
- 6.4.3.7 For the purposes of claiming official distances travelled in a calendar month, employees must keep a logbook/ sheet acceptable to SARS reflecting the official and private kilometers travelled per month which must be approved in writing by the Senior Manager reporting directly to the Municipal Manager and submitted to the Department: Financial Services Management by no later than the 7th of the month following the month during which the official journeys were undertaken and such a claim will thus be processed with the salary.
- 6.4.3.8 No claims may be submitted for journeys between the employee's residence and place of work.
- 6.4.3.9 Prior written approval for all official journeys undertaken outside the municipal boundaries must at all times be obtained from the Municipal Manager or applicable Senior Manager reporting directly to the Municipal Manager and or officials delegated by them, on the prescribed trip authorization form and payment of such trips will be made within the maximum kilometers of the re-imbusement travel allowance. If the maximum kilometers of the re-imbusement travel allowance is reached, kilometers in excess thereof shall thus be paid in terms of Council's Subsistence and Travelling policy applicable at the time.

6.5 Ad-hoc Travel Allowance in respect of temporary and occasional trips

- 6.5.1 An ad-hoc Travel allowance shall be payable in cases where temporary or occasional official trips are undertaken by means of private transport.
- 6.5.2 Employees in positions not in receipt of travelling allowance and in the absence of pool vehicles are requested and agreed to by the Executive Manager to use their private motor vehicles for the official business would be legible to receive the re-imbusement allowance on an ad-hoc basis.
- 6.5.3 This section applies only for the use of personal vehicles within the demarcated boundaries of the Municipality. Any ad hoc travelling that takes place outside the demarcated municipal boundary shall be claimed in terms of Council's Subsistence and travelling policy applicable at the time.

$$A = \frac{(b \times c1 \times k)}{2 \times f} + \frac{(b \times c2 \times m)}{12 \times f}$$

Where **A** = the monthly transport allowance.

B = the total car ownership cost per kilometre based on the actual New purchase price of the vehicle supplied by the employee, subject to the provisions of clause vii and on an annual kilometre distance as applicable to the post being acted in.

c1 = the official annual kilometre distance in respect of the position being temporarily filled by the employee, as determined.

c2 = the official annual kilometre distance in respect of the position being temporarily filled by the employee, as determined.

f = the number of working days in the calendar month in which the transport allowance is calculated

k = the number of working days that the employee fills his/her own position in the calendar month referred to in "f"

m = the number of working days in the calendar month referred to in f that the employee fills the temporary position referred to in c2"

6.5.5.2 An employee who holds a position coupled with a Travelling Allowance and acting or temporarily performing the duties of another employee for a period of five working days per month or more shall receive the Travelling allowance associated with the execution of duties associated with the position of the other employee. This additional amount, payable after submission of daily return statements (log sheets).), shall be calculated as follows:

$$A = g \times a$$

Where **A** = the additional amount

g = the total running cost per kilometre

a = the kilometre distance covered in the execution of duties associated with the position of the other employee

6.5.5.3 When an employee who does not hold a position coupled with Travelling Allowance acts temporarily in the post of another employee who holds a position coupled with a Travelling allowance, the employee concerned shall, if he/she supplies a private vehicle for the period while acting, receive a Travelling allowance associated with the position coupled with a Travelling Allowance. Maximum of 10 km return for each day that the employee supplies such transport in the Council's service.

The occasional transport allowance shall be calculated as follows:

$$A = b \times c$$

Where

- A** = the occasional locomotion allowance payable
- b** = the total car ownership cost per kilometre based on the actual new purchase price of the vehicle supplied by the employee, and on an annual kilometre distance of 14 000 km
- c** = the actual kilometre distance covered as well as the return trip between home and work.

Calculation of the Recorded Kilometers

- 4.1.1.1 The kilometre covered in the previous 3 (three) months shall be divided by 3 (three) to obtain the monthly official kilometre distance for the post.
- 4.1.1.2 Where the incumbent of a post coupled with a transport allowance desires a re-determination of the official distance limit associated with a position, a written notice shall be given to the Manager concerned. Immediately after seven days has lapsed after such notice has been submitted, the employee shall continue to keep a daily return of all official trips up to date for 3(three) months in accordance with the procedure laid down.

In the absence of an agreement being reached, the employee may take the matter further in line with the dispute resolution mechanism in the Municipality.
- 4.1.1.4 Where an employee covers more than 1200 km per month for official purposes, it is suggested as a guideline that such incumbent rather be supplied with an official vehicle. Except in situations where fleet is not available.
- 4.1.1.5 Employees must make sure that the trips are planned in such a way that they don't exceed the allocated kilometres per month.

6.6 Calculation of the monthly allowance

6.6.1.1 The rate for fixed, fuel and maintenance costs specified in the Applicable AA tables for the vehicles that cover 14 000 a year. Calculations in respect of a running Travelling allowance shall however, be limited to vehicles with a maximum cylinder capacity of 2 500 cc to maximum of 100% of the employee's salary.

6.6.1.2 The approved distance covered for official purposes by means of private transport.

6.6.2 Basis for the calculation and payment of an ad-hoc Travelling Allowance.

The basis for the calculation and payment of an ad-hoc Travelling allowance shall be the same as the running Travelling Allowance as set out more fully in bullet above.

6.6.3 Basis for compensation (AA Tables)

All Travelling Allowance payments shall be calculated according to the "estimated average car ownership costs over six years" of the AA. The AA tables make provision for the cost factors as stated below. All local authorities should therefore use the prescribed tables for the purposes of this scheme to calculate Travelling Allowances whether fixed or ad- hoc by nature.

6.6.4 Fixed costs

Fixed costs These factors include the following elements:

6.6.4.1 Depreciation of new car value, loss of interest (at current rates) comprehensive insurance and license, registration.

6.6.4.2 For purposes of fixed costs the vehicle's purchase price shall be used as a basis.

6.6.4.3 If this price is higher than the vehicle's retail value, the latter value shall be used for calculation purposes.

6.6.4.3.1 The actual purchase price must be associated with the annual distance applicable to the post concerned.

This factor is in relation to the price of ordinary fuel as at the current cost per litre

6.6.6 Maintenance Costs

To obtain maintenance costs in cents/kilometre the engine size in relation to the annual distance covered shall be taken into account.

This factor represents the sum total of the vehicle's fixed fuel and maintenance costs and forms the basis on which the calculation of Travel allowances shall be made.

No deviation from the above calculations which represents the tendency of projected average car ownership costs over six years shall be allowed. MCLM must therefore use the prescribed tables for the purposes of this scheme to calculate Travel allowances whether fixed or ad-hoc by nature.

Vehicle Purchase Price versus Annual Basic salary method

Rule 1. The lowest of the two (2) determines the Fixed cost on the Purchase price tables

Rule 2. The Purchase price comprise of the Cost price of the vehicle Plus VAT.

- Engine capacity will determine the Running cost as per running cost table rate.
- Take the sum of the (Fixed Costs + Running Costs) to give the allowance per km.
- Take the Allowance per km, multiply by approved allocated km per month (e.g. 650km, 900km, 1200km etc.)

6.10 Qualifying Criteria for employees

6.12.3 Unless such employee's vehicle is not used by him/her for official purposes during this period in which case the employee's transport allowances shall be calculated as follows:

$$A = h \times \frac{c}{12}$$

Where A = monthly transport allowance

h = the total cost per kilometre

c = the annual kilometre distance determined in accordance with the policy

.MCLM shall be entitled to cease an employee's Travelling allowance for reasons other than those mentioned above if such withdrawal is based on substantively fair considerations.

If local circumstances justify or necessitate it, the restrictions contained in this policy in respect of specific employee may be relaxed after a proper work study exercise.
