RECRUITMENT OF AUTOMOTIVE AFTERMARKET SMMEs FOR THE CHAMDOR AUTOMOTIVE HUB

The Chamdor Automotive Hub Project is a result of a partnership between Gauteng Provincial Government and Mogale City.

The programme is focused on the development of an Automotive Enterprise Hub in Mogale City Local Municipality in Kagiso at the Chamdor Training Centre. Historically, Chamdor has always had a strong, albeit informal, automotive presence and is largely a previously disadvantaged community with numerous informal automotive artisans who have received little or no skills development and training.

The objectives of the Chamdor Automotive Hub are:

- To create sustainable township entrepreneurs in the automotive sector
- To train and upskill automotive entrepreneurs/artisans
- To create jobs for the local community
- To renew and redevelop the Chamdor Training Centre/Industrial site
- To contribute to local economic development in the Mogale City Local Municipality
- **Targeted SME's should be growth-ready, established automotive sector SMEs that provide auto-trade services including:**
 - Mechanics
 - Panel-beating and spray painting
 - Auto-body repair works
 - Wheel alignment and tyre fitment
 - Other general automotive related trades will also be considered
- **Please submit the below documents:**
 - Registered legal entities (**provide CIPC certificate and Tax certificate**);
 - South African owned (**provide ID document of the Directors/Owners**);
 - In possession of a bank account (**provide proof of bank account**);
 - Operating in Mogale City Local Municipality (**registration address of the business to be registered under the MCLM**);
